ACRYLIC FABRICATION AT IT'S BEST

File formats

Files can be provided in the following formats:

- Adobe Indesign up to CS3
- Adobe Illustrator up to CS3
- Adobe Photoshop up to CS3
- Coreldraw up to Version 15
- Freehand MX

Microsoft Office or Quark Express cannot be used at all.

Open File

- Please sent the file to be printed on disk or e-mail.
- All graphics should be 300dpi (dots per inch), to ensure a top quality print.
- The graphic must be in CMYK
- Please allow 5mm bleed for cutting purposes.
- Converted fonts to paths/curves.

Quality Print

For the best quality print please supply vector files.

- **Please do not take a 72dpi graphic and change it to 300dpi it will not help the quality at all.**

Colour

If you would like your print to be a certain colour please supply a colour swatch, proof or Pantone reference to ensure correct match. We only print in CMYK and certain Pantone colours can vary by up to 20%.

- **Clear Design will supply a proof when matching colour. The job will not begin until sample is signed off.**

Cutting files

Please supply cutting in vector format (.ai)

D.T.P

We are also offer an editing service at R 450 per hour.

Printing white

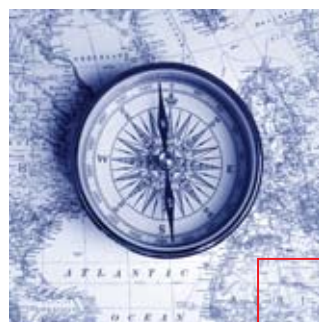

If you have white in your job please indicate it on your file, using a different colour which is labelled as white.

Turnaround time

- **Print only** 3 working days is needed
- **Print and manufacture** 10 – 15 days full working days is required.
